BASIC INFORMATION

Given name : Phuong
Middle name : Chau Duc
Family name : Vo
Date of Birth : 24/09/2002
Nationality : Vietnamese
Birthplace : An Giang, Vietnam

EDUCATION

| | |
|--|---|
| University of Grenoble-Alps <i>PhD student</i> | Grenoble, France Nov 2025 – October 2028 |
| The Abdus Salam International Center for Theoretical Physics (ICTP) <i>Diploma student, pre-PhD course</i> <i>Condensed matter and statistical physics, Best student of section</i> | Trieste, Italy Sep 2024 – August 2025 |
| University of Science <i>Honours B.Sc. degree in physics; GPA: 8.88/10.0</i> <i>Major in theoretical physics</i> | Ho Chi Minh city, Vietnam Sep 2020 – July 2024 |
| Thoai Ngoc Hau highschool for the gifted <i>Major in physics; GPA: 9.1/10.0</i> | An Giang, Vietnam Sep 2017 – July 2020 |

RESEARCH EXPERIENCE

| | |
|---|---|
| Laboratoire de Physique et Modélisation des Milieux Condensés, CNRS <i>PhD Full-time Working</i> | Grenoble, France Nov 2025 – October 2028 |
| The Abdus Salam International Center for Theoretical Physics <i>Internship</i> <ul style="list-style-type: none">Working on Altermagnetic material RuO_2 with the DFT calculation using GGA + U approach. Porting to Wannier90 to minimize the localized Wannier's function and attempt to calculate the transport properties. | Trieste, Italy May 2025 – August 2025 |
| Institute of Applied Mechanics and Informatics <i>Internship</i> <ul style="list-style-type: none">Worked on the “Calculation of Shift Tensor in Transition Metal Dichalcogenide” project under the supervision of Dr. Huynh Thanh Duc. Investigating the shift current induced by optical excitation in two-dimensional transition metal dichalcogenides. Our approach is based on a second-order perturbation expansion of the semiconductor Bloch equations which are formulated in the basis of a three-band tight-binding model. From that, shift current tensors have been calculated for several different materials and their dependence on photon energy has been investigated and discussed. Results have been reported in the International Conference on Energy, Infrastructure and Environmental Research (EIER 2024).Worked on my bachelor thesis: “Calculation of The Linear-Absorption Spectrum of An Ideal Two-dimensional System of MoS_2”. Using Semiconductor Bloch Equations, the Coulomb interaction had been taken into account using the Hartree-Fock approximation. This work confirms the exciton binding energy in MoS_2 in agreement with experiments using a model with a minimum number of energy bands. The findings were presented to the Department of Theoretical Physics at the University of Science in Ho Chi Minh City, Vietnam, receiving a grade of 9.4/10. | Ho Chi Minh city, Vietnam Feb 2023 – July 2024 |

PUBLICATION

P. D. Vo Chau, & Huynh, T. D. (2024). Calculation of shift current tensors in two-dimensional transition metal dichalcogenides. E3S Web of Conferences, 496, 02002–02002. <https://doi.org/10.1051/e3sconf/202449602002>

Bachelor's thesis

Calculation of The Linear-Absorption Spectrum of An Ideal Two-dimensional System of MoS_2

Thesis:  [GitHub](#)

Abstract: Using Semiconductor Bloch Equations, the Coulomb interaction has been taken into account using the Hatree-Fock approximation. This work confirms that the exciton binding energy in MoS_2 is in agreement with experiments using a model with a minimum number of energy bands.

Diploma's Project Thesis

Altermagnetism in RuO_2

Thesis:  [GitHub](#)

Abstract: In this work, we investigate and confirm the existence of altermagnetism as a third state of magnetism in RuO_2 . We also present the procedure for calculating the Berry curvature, illustrating the trace of the Dirac point in the RuO_2 band structure. Testing the stability of the system under doping, we found and had a discussion on the reduction of the on-site magnetisation and Fermi level in electron doping, and its stability under hole doping.

AWARDS & ACHIEVEMENTS

Best performing student in 2024-2025 Postgraduate Diploma Programme in Condensed Matter Physics

Achieved the top rank of the program in general and the best student in condensed matter physics in particular. (admission class 2024 -2025)

Top 1st. in Physics majors (both in general and honour program) at the University of Science, National University of Ho Chi Minh city: Achieved the top 1st. rank in the physics class, selected for the honours program in the first year due to outstanding performance in high school. (admission class 2020-2024)

- Completed a rigorous curriculum with a focus on advanced theoretical and experimental physics.
- Engaged in cutting-edge research projects under the guidance of experienced professors.
- Awarded scholarships for academic excellence and opportunities for international exchange programs.

Scholarship For Top Student In The Honours Class: Received an award for being the top student in the honours class each semester. (2020-2023)

2nd Prize in the "National Physics Olympics for College Students": Annual Contest for college students in Vietnam, host by Phenikaa University, Hanoi, Vietnam. (2022)

- Participated in the annual national physics competition organized by **the Ministry of Education and Training, the Vietnam Physical Society**, and various universities.
- Demonstrated advanced problem-solving skills and a strong understanding of physics concepts.
- Engaged in theoretical and experimental physics challenges, showcasing creativity and analytical thinking.

Golden Medals in "Traditional 30/04 Olympiad": An annual academic competition in Vietnam, primarily for high school students from the southern region. It was established by Le Hong Phong High School for the Gifted and first held in 1995. (Awarded golden medals in both 2018 & 2019)

Odon-Vallet Scholarship: The Odon Vallet Scholarship, established by Professor Odon Vallet from Sorbonne University, is awarded annually to outstanding Vietnamese students. Sponsored by the scientific and educational organization "Rencontres du Vietnam," the scholarship aims to support talented students in their academic pursuits. (2018)

Natasa Stojic 

Long-term visitor scientist

LB-301, The Abdus Salam International Center for Theoretical Physics

@ nstojic@ictp.it

Prof. Natasa Stojic is my lecturer and also is the thesis's supervisor in my diploma program at ICTP.

Huynh Thanh Duc

Researcher

Institute of Applied Mechanics and Infomatics, Vietnam Academy of Science and Technology, Vietnam

@ htduc@hcmip.vast.vn

Dr. Huynh Thanh Duc is my supervisor for my works at HCMC INSTITUTE OF PHYSICS and also is my thesis's supervisor (2022-2024).

CODING SKILLS

Beginner: JULIA, MATHEMATICA

Intermediate: FORTRAN, PYTHON, MATLAB, Bash

LANGUAGE SKILLS

Vietnamese: Native

English: Reading and listening: fluently, writing and speaking: good

German: Beginner

Latin: Beginner

ORGANIZATIONS AND VOLUNTEER EXPERIENCE

Organizations

Math and Science Summer Program

Headmentor (2024)

Mentor (2023)

July 2023 & July 2024

Phenikaa University, Hanoi, Vietnam

University of Education, Hanoi, Vietnam

- *Headmentor (2024):* Organizing the program, topics and given lecture for student in physics section and join in the project committee at the final day's presentation.
- *Mentor (2023):* Preparing and giving the lectures on multiple topics in Physics and join in the project committee at the final day's presentation.

Newton-Einstein-Schrödinger NES academic club

Member

2020-2024

Ho Chi Minh University of Science

- *As Junior:* Prepared and delivered tutorial classes for final examinations. Participated as a volunteer with the NES club during summer and spring sessions.
- *As Senior:* Mentored the Juniors in multiple skills, helping them prepare for the tutorial class, and acting as a node between the student union of faculty and the club.

Physics faculty's student union

President

2020-2021

Ho Chi Minh University of Science

- Organizing and managing the volunteering program within the major. Providing assistance and input on various issues for the faculty's student union.
- Collaborated with the student union to represent the collective voice of the student body in discussions and decision-making processes.
- Actively participated in initiatives aimed at improving the student experience and fostering a positive academic environment.

Volunteer

ICTP 60th Anniversary

Member

Trieste, Italy

November 2024

- Presented in Budinich Lecture Hall, helped in guiding participants into seat. Guiding the guest to their destination in ICTP's building.
- Helping other member in guiding and answer's guest questions

Tutoring For a student in SOS Village🐼

Ben Tre province, Vietnam

Member

2022

- Tutoring the student according to his school's work and help him prepare for the exam.
- Inspire him to continue follow the study and pursuit a university degree.

Volunteer Spring

Ho Chi Minh city, Vietnam

Member

2022 & 2023

- Prepared and delivered the academic physics seminar for elementary and high school students. Inspiring them to follow the scientific job.
- Assisted in the preparation of "Banh Chung & Banh Tet," traditional cakes for the Lunar New Year, contributing to a warm and festive atmosphere for the local community during New Year's Eve.

Green Summer Campaign🐼

University of Science, Ho Chi Minh city, Vietnam

Member

2022 & 2023

- Prepared and delivered the academic physics seminar for elementary and high school students. Inspiring them to follow the scientific job.
- Organized and guided a field trip through various laboratory facilities at the University of Science. Developed and facilitated a set of questions to encourage student engagement and foster inquiry.

Charity Meal

Ho Chi Minh city, Vietnam

Member

2021 & 2023

- Assisted in preparing ingredients and cooking meals for community charity events at local pagodas. Coordinated the packing and transportation of meals to delivery sites, ensuring timely service.
- Organized and managed the extensive dish cleaning process afterward.
